Madison 6, Wisconsin

Dear Lederberg:

We will have an opening in our Division for a person with a good background in bacterial genetics. Is there any chance that Larry Morse will be through? If not, do you have someone else that you can recommend? We have a position, as well as a type of fellowship, open. I will send you more details in regard to the fellowship next week. In case you have someone, we would like to get our chance.

Best personal regards.

Sincerely yours,
